

— GLOBAL THINKING. DOMESTIC SOLUTIONS.

EVERY MATERIAL. EVERY SECTOR. ONE GROUP.

Recycle Group is an Australian-owned recycling solutions company. We specialise in high-volume mainstream recyclables as well as challenging, diverse and complex downstream solutions for business, government and industry. We turn waste problems into recycling solutions.

96%

of everything collected kept out of landfill

250k+

mattresses recycled a year

99.9%

metal recovery rate on every mattress

92,000 m³

of polystyrene densified in twelve months

— WHAT RECYCLE DOES

WE PROCESS IT ALL OURSELVES.

01

TRANSFER STATION MANAGEMENT

Full management of public transfer stations, with recovery above industry standard.

02

HIGH-VOLUME MATERIAL RECYCLING

Steel, coloured metals, cardboard, plastic, polystyrene and timber, processed on our own sites and returned to market as commodities.

03

MATTRESS HOOK BINS

A 40 m³ caged hook bin on a council site. Staff fill it at their own pace; a hook truck lifts it away.

04

POLYSTYRENE

Including commercial polystyrene, densified at our own plant and reprocessed or exported.

05

COUNCIL SERVICES

Hard waste collection, illegal roadside dumping, and regional and remote council support with B-double and road-train collections.

06

CLEAN FILL, SOIL AND RUBBLE

Topsoil, clean fill, bricks and concrete recovered; screened topsoil, crushed rock and recycled soil available outbound.

07

CLEAN-UPS AND CLEARANCES

Burnt-out or abandoned cars, trailers, caravans, boats, site containers and site offices.

08

COMMINGLED, FOOD AND ORGANICS

Ongoing services across port precincts and other large, busy sites. Green waste to our own infrastructure.

09

RETAIL AND NATIONAL PROGRAMS

End-of-season fit-outs and stock for national retailers; TV and screen recycling; paint programs.

10

METALS AND CABLE

Copper, brass, aluminium and mixed metals exported; electrical cable granulated with the copper recovered.

11

SHIPPING, CRATING AND EXPORT

Covers, pallets and steel for shipping companies; crating with trans-global partners; licensed polystyrene export.

12

REMOTE COMMUNITIES

Waste collection and recycling services for remote Indigenous communities across Australia.

**SIX BRANDS.
ONE VISION.**

junk.com.au · trash.com.au · rubbish.com.au · declutter.com.au · timbercycle.com.au · plastercycle.com
Each services a specific market, from tailored collection, by the cubic metre or at a fixed price, to timber and plasterboard recycling.

REAL JOBS. REAL NUMBERS.

PORTS

327t

recovered from a port precinct clean-up, not landfilled

COUNCILS

33,000

mattresses and couches in one year, from two transfer stations

DEVELOPERS

135,000m³

of topsoil a developer was going to discard

TUNNELS

100%

of the project's polystyrene recycled

EXPORT

525t

of mattress spring steel baled and exported a month

WHO WE WORK WITH

Councils · Governments · Property developers · Corporations · Retailers · Real estate agents · National parks & facility managers · State road operators · Rail & terminal operators · Ports · Airports · Tunnel & infrastructure construction · Shipping companies · Trans-global partners · Mining & resources · Hospitals & universities · Manufacturers · Transfer station operators

EIGHT RECYCLING OPERATIONS.

MATTRESS RECYCLING

About 38 seconds per mattress; spring steel separated 99% free of fabric.

POLYSTYRENE PLANT

300+ m³ a day; three shipping containers of foam into one cube.

RESOURCE RECOVERY CENTRES

90+ streams separated under cover, six days a week.

CARDBOARD RECOVERY

Conveyors and balers on site; baled, containerised and exported.

METAL RECYCLING

Steel and coloured metals sorted, baled and exported as commodities.

TIMBER RECOVERY

Pallets, dunnage and plain timber separated from mixed loads.

SHREDDING

Residual cut to a quarter of its original volume.

ORGANICS

Food, green and organic waste, including port precinct services.

MEASURE. UNDERSTAND. REPORT. IMPROVE.

Yarta is Recycle Group's environmental sustainability report and live dashboard for councils and businesses. It evaluates your data against the eco standards and the benchmarks for your industry, compares it with your targets and your last period, then gives you a roadmap to improvement.

Every load tracked. Every figure reported. Diversion statements by site and period, with residual reported in full.
